

# Introduction to **Software Architecture**

Philippe Collet  
(95%. of slides from Sébastien  
Mosser)  
Lecture #1

# Architecture?

The **art** or **science** of building; esp. the art or practice of **designing** and **building** edifices for **human use**, taking both **aesthetic** and **practical factors** into account.

# Architect?

“

**Beautiful**

architectures

do **more** with **less**.

# ISA & DevOps as a Single Module

Week		Friday Morning				Friday Afternoon			
	Date	08:00 - 09:00	09:00 - 10:00	10:15 - 11:15	11:15 - 12:15	13:30 - 14:30	14:30 - 15:30	15:45 - 16:45	16:45 - 17:45
4	29/01/2021	Kickoff J2E EJB (3h pre-recorded)			Project kick-off	DevOps overview	TD DevOps on TCF		
5	05/02/2021	Ski Week (canceled)							
6	12/02/2021	Project work			EJB ORM	Test	Project work		
7	19/02/2021	Project work		View point	Interoperability & WS	Artifactory	Multi-plan CI	Project work	
8	26/02/2021	Project work				Project work			
9	05/03/2021	Winter Break							
10	12/03/2021	Project work			(buffer)	Whiteboard	Project work		
11	19/03/2021	Technical interview (Minimal & Viable Product)				Technical interview (Minimal & Viable Product)			
12	26/03/2021	Project work			Arch Dojo	Docker	Project work		
13	02/04/2021	Project work			Persistence	Compose	Project work		
14	09/04/2021	Project work			Stateful Services	Kubernetes	Project work		
15	16/04/2021	Project work			Interceptors	tbd	Project work		
16	23/04/2021	Project work			(buffer)	(buffer)	Project work		
17	30/04/2021	Easter Break							
18	07/05/2021	Technical interview (Final Deliverable)				Technical interview (Final Deliverable)			
19	14/05/2021	Exam				Exam	Project work		

Shared Case study & Technological Stack

# Contract

---

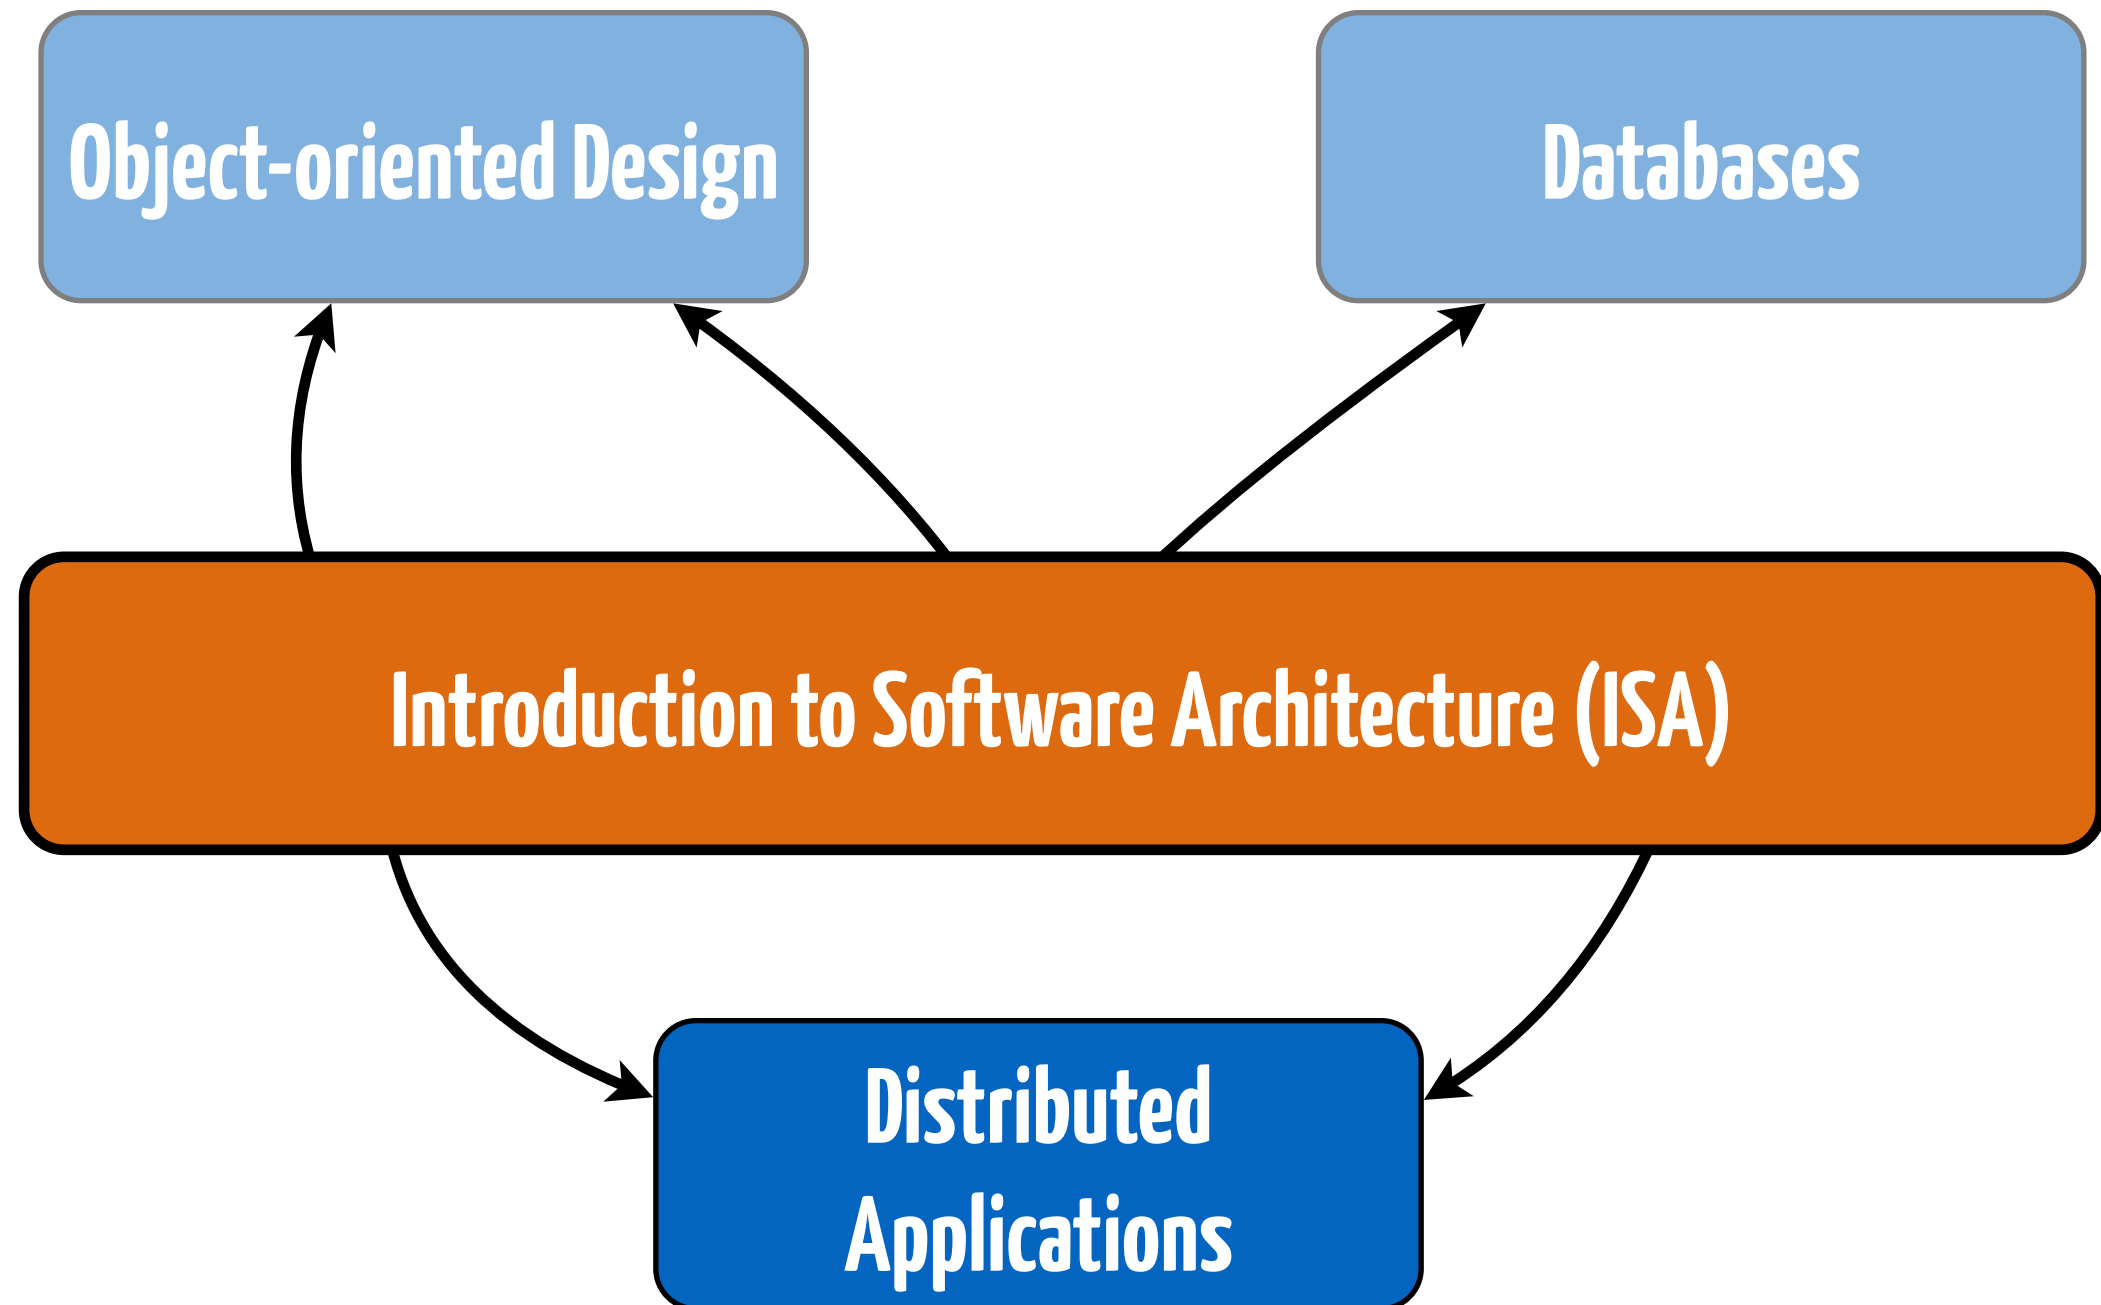

- Students:
  - **Be on time** (lectures, labs)
  - **Project involvement**
  - **Prepare** when asked for
- Staff:
  - **One-week latency feedback**
  - **Availability (slack)**

# Intro. to Soft. Arch.: Dependencies

[BA, 2009]

[PoEAA, 2002]

# Evaluation (dependency graph)

Homework

# Today

Building teams of 5

Setup : GitHub classroom / repo / kanban

Compiling & Understanding TCF  
(The Cookie Factory)

Start the project understanding

# Delivery

Sunday 14th, February, 8:00pm

Architecture document on the git (~10 pages long)

- Use cases diagrams;
- Business objects definition as class diagram;
- Interfaces pseudo-code definition (e.g., Java like);
- Components described by a component diagram;

Each artefact must be justified with respect to its relevance in your architecture.
